

**AMENDMENTS TO THE DRAWINGS**

The attached sheet of drawings includes changes to Figure 1 showing a diagram of a battery system employing an inverter for outputting an AC voltage of a pre-established value and frequency. Support for the Amendment is provided at least on page 2, lines 1-3 and in Fig. 5, Fig. 6a, and Fig. 7a of the Specification for WO 031007464. Therefore, the Amendment raises no issue of new matter.

Applicant submits the attached replacement drawing sheet to correct the second occurrence of the label "Negative Electrolyte Reservoir" (on the right side of drawing) to read as "Positive Electrolyte Reservoir." An annotated drawing sheet showing the change(s) to be made is also provided for your reference.

Attachment:        Replacement sheet  
                         Annotated sheet showing changes

APPENDIX

## REPLACEMENT DRAWING SHEET
